

2018 - BIGGEST REPUBLICAN VOTER TURNOUT IN HISTORY

Subject: MAKING 2018 THE BIGGEST REPUBLICAN VOTER TURNOUT IN HISTORY CAMPAIGN HAS BEGUN.

Dear Republican Candidate:

We are working to make it possible for the GOP to experience the greatest Republican voter turnout in America's history. Our 2018 Campaign will start in January and enable GOP candidates to gain seats in State Legislatures, State Executive seats, Congress, Judiciary, Federal and local elections.

Markets Global has a proprietary database of 300 million people in the USA with emails, names, addresses, phones, zips and more. **Markets Global will provide to Republican candidates the entire 300 million database without costs.** The database can be used in local, regional, State and national campaigns. Markets Global will also provide programming, IP's, domains, creative/graphics, technical and monitoring support. Our proprietary technology will provide for Republican candidates detailed reports in csv files with full contact information for opens and clicks. These csv files will be important for follow up, developing new supporters and workers, as well as future fund raisers.

We can deliver a candidate's message to upwards of 90% of the voting public. This market penetration reaches almost every millennial, working class citizen and senior who is of age to vote in primaries, general and special elections.

Millennials can be especially receptive to the Republican message because they recognize the deceptions being thrown at them from the media and other candidates. Pew Research Center reports: "Millennials' are those born after 1980 and the first generation to come of age in the new millennium". They represent approximately 53% of the voting population in America and are still forming their core values. Republicans have much to say to these voters that the media, higher education and other candidates will not tell them. **Markets Global's email deployment capabilities can be used to increase Republican Voter Registrations and drive a very significant percentage of millennial voters into the GOP camp.** Our deployments complement all social media and provide deep penetration into voter populations for each Republican candidate.

A candidate can reach voters on their iPhones, tablets and computers. A GOP candidate's message can be delivered by video, text, websites, live seminars, video conferences, phone conferences, polls, chats, blogs, games and search engines. The millennial generation is especially receptive to IT technology and to the many delivery options offered in these medium.

A campaign message delivered 3 or more times a month before election day can leave a very powerful and favorable branding impression when a voter steps into the ballot box.

Markets Global is supporting Republican candidates exclusively and is actively helping to grow GOP's membership in local, state and national elections. **We have developed unique deployment capabilities**

that allow us to deliver a candidate's message in State and national campaigns for as little as \$6.67 per 100,000. Go to <http://marketsglobal.co/2018.htm> for further details.

For answers to your questions send your emails to candidates@marketsglobal.co. You can also contact us at (828) 520 1199 or (828) 783 0599.

Let other Republican candidates know about this special offer. Orders can be combined with other candidates in Local, State and national elections.

Republican deployments will begin in January 2018 and continue until election day in November 2018. To participate in this special offer reserve your bandwidth space quickly to avoid being bumped or transferred into a succeeding month. http://marketsglobal.co/GOP_Order_Form.pdf
